EARLIER
YOUR
KIDS
START,**

**THE
SMARTER
THEY'LL
BE!**

Give your kids the academic advantage to compete in today's world — FOR AGES 3+

**MAKE
THE EARLY
YEARS
COUNT.**

The perfect time to start Kumon is before your child starts school

Starting Kumon early not only gets your child ready for school, it also lays the groundwork for advanced studies later on. The Kumon Program begins with simple counting in math, and letter sounds in reading, building a solid academic foundation that can mean early and ongoing success in the classroom. Just as importantly, it fosters confidence, self-esteem, and a love of learning that can last a lifetime.

**The Kumon Method began with a parent's love
and a belief in the power of education.**

Determined to advance the learning of his 8-year-old son, a math teacher named Toru Kumon developed the materials and guiding principles. The method was so successful that by sixth grade, his son Takeshi was solving calculus problems. Today, Kumon is advancing the learning of millions of students around the world.

HERE'S HOW THE KUMON METHOD GIVES YOUR CHILD A GREAT HEAD START.

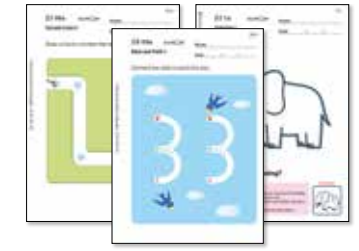

...in Reading

The Kumon Reading Program starts with fun “look, listen, and repeat” worksheets that get your pre-reader to build vocabulary. Colorful illustrations connecting words to familiar objects start your child on skill-building activities and then help your child to start putting words together. These skills help your child begin reading simple sentences.

...in Math

Success and confidence in math begin with learning and counting numbers up to 120, as well as proper number sequencing. These skills provide a strong foundation for learning basic addition and subtraction.

...with Pencil Skills

Pencil skills worksheets prepare students to write numbers and letters through drawing lines, curves and angles.

**THE KUMON
INSTRUCTOR
GUIDES AND
ENCOURAGES
YOUR CHILD BY:**

Continually
reviewing
progress.

Fine-tuning
lesson
plans.

Offering
guidance as
needed.

Regular conferences with you also help gauge progress, goals, and motivation — accelerating learning even more. You, along with your child's instructor, play an important role in ensuring your child gets the most out of the program.

**EARLY
LEARNER
SUCCESS
STORY**

**Porter, age 3,
New York**

After Porter’s parents enrolled his older sister in Kumon as a pre-schooler, they watched her reading advance to a second grade level — during kindergarten. Wanting their son to have the same advantages, they enrolled Porter before he knew his numbers, letters, or how to write properly with a pencil. In just two months, his parents already saw improvement. “He gets excited when he recognizes pictures he’s seen in his Kumon exercises,” says his mom, Rebecca. Porter’s individualized lesson plans allow him to progress at his own pace, and he’s thriving.
