

How Do I Get My Child Into a School Routine?

When you commit to practicing routines, you'll see the benefits time and time again.

Routines help teach responsibility and independence. They can even boost your child's confidence, all values we believe in at Kumon. A routine helps kids feel comfortable and secure because they know what to expect next. When routines are followed your child wins – and so does your family.

Study Tip of the Month

Prioritize & Plan

Creating a schedule will help your child plan time. Compile a checklist to encourage them to know their goals and work independently to accomplish them. Help them prioritize and plan work that needs to be finished first or is the hardest. Establish what needs to be accomplished with time dedicated to the goal. Your child will feel accomplished with initial guidance and progress tracking.

Student Passionate About Robotics Wins Award in First Lego League Robotics Challenge

Meet Anvita, who finds focus and motivation in challenging work.

Anvita's strengths have led to many achievements including receiving awards in the FIRST Lego League Robotics Challenge (FLL). The FLL seeks bright young students to research a real-world problem, such as food safety or recycling, and then develop a solution to the problem. With a deep passion for science and technology, Anvita aims to get into a career related to robotics.
