

Small Steps. Big Advancement.

Kumon is a supplemental learning program that helps children from preschool through high school develop strong math, reading and writing skills. The proven Kumon Method uses a step-by-step approach to learning that ensures children advance by ability, not grade. Each worksheet set is one small step more advanced than the previous set.

Learn more about how Kumon's time-tested curriculum works alongside your kid's learning.

Middle School Reading

INTERPRET AND COMPREHEND TEXT

Students understand the links between sentences in a paragraph and answer questions about the text.

IMPRESSIONS AND SENTIMENTS

Students utilize key words to express their impressions of a passage and identify character sentiments.

PERSPECTIVE

Students develop and justify opinions while understanding how paragraphs connect.

READING WITH A BROADER VIEW

Students consider an outsider's opinion and justify their own based on their understanding.

CENTRAL IDEA

Students identify and expand on the central idea to draw reasoned conclusions.

READING COMPREHENSION AND SUMMARIZATION

Students summarize one paragraph while keeping the context of the whole passage in mind.

AND BEYOND...

Students advance their critical reading skills and begin to analyze characters, understand plot, and interpret stories. Check out our high school graphic for more details.
