# Small Steps. Big Advancement.

Kumon is a supplemental learning program that helps children from preschool through high school develop strong math, reading and writing skills. The proven Kumon Method uses a step-by-step approach to learning that ensures children advance by ability, not grade. Each worksheet set is one small step more advanced than the previous set.

Learn more about how Kumon's time-tested curriculum works alongside your kid's learning.

## UNDERSTANDING WORD FUNCTIONS

Students develop their ability to read, write and spell words. They begin to learn the function of nouns, verbs and adjectives.

### **READING ALOUD**

Students build on their pre-reading skills by developing the ability to read short passages on their own.

#### UNDERSTANDING SENTENCE STRUCTURE

Students learn basic sentence structure and become familiar with pronouns, subject/verb agreement, punctuation, and verb tense.

## **Elementary Reading**

## READING COMPREHENSION

Students develop comprehension skills by visualizing and understanding the contents of short passages.

## PARAGRAPH STRUCTURE AND COMPREHENSION

Students learn to combine and divide sentences, and then how to break down complex paragraphs to identify main ideas.

### AND BEYOND...

Student learn to summarize paragraphs and how to develop thoughts and justify opinions based on reading passages. Check out our middle school graphic for more details.
